

BBA in Information Systems

Your Lubin BBA: A Rewarding Career in a Critical Role

Your Lubin BBA in Information Systems will deliver to you the technical expertise necessary for success in a variety of positions.

- Transform businesses and markets through technology
- Blend core business principles with new and emerging technologies
- Gain a global perspective of information technology
- Connect with visionary IT leaders in business and industry

Your coursework at Lubin's downtown campus—in the heart of Manhattan's financial district—will include an abundance of opportunities for hands-on experience with some of the world's most respected corporations and organizations.

\$77,080

Median salary for systems analysts nationally. (Source: O*NET)

Gain Useful Skills and Practical Experience

As a student in the BBA/IS program, you will take courses from both the Lubin School of Business and the Seidenberg School of Computer Science and Information Systems, one of the first comprehensive computing schools in the country. Through this unique combination of world-class schools, you garner a deeper understanding of and practical skills in business telecommunications, information systems principles, and project management. You gain:

- **Essential** [business management](#) knowledge
- **A thorough understanding of** [systems and database management](#)
- **Database** [management skills](#)
- **Facility with** [global data communication](#)
