

Installing and Running Cisco AnyConnect VPN on a Mac

Introduction

This page provides instructions for how to install and connect to the **Cisco AnyConnect VPN Client** for Macs.

The Cisco AnyConnect VPN client is a web-based VPN client that does not require user configuration. VPN, also called IP tunneling or Virtual Private Network, is a secure method of accessing Pace University computer resources.

Note: You will need to install the Java Runtime Environment before you will be able to successfully install the AnyConnect program. You can download this Java program at <http://www.java.com>.

Installing Cisco AnyConnect VPN on a Mac

- open a browser and navigate to <https://vpn.pace.edu>
- type your *MyPace Username* and *Password*

PACE UNIVERSITY Virtual Private Network (VPN)

This new version of the VPN software is supported for the following operating systems:

Windows Vista with Service Pack 2 or Service Pack 1 with KB952876
Windows XP with Service Pack 2 or Service Pack 3
Windows 2000 with Service Pack 4
Mac OS X Version 10.4 and later for PPC or Intel
Windows 7
Linux with Kernel releases 2.4 or 2.6

For more information, please visit our [ITS website](#).
If you have any questions about this, please contact the ITS Help Desk at 914-773-3848 or <http://help.pace.edu>.

- click **Login**

The Cisco AnyConnect Secure Mobility Client will attempt to automatically install the VPN software. If the automated install does not succeed, you can download the AnyConnect VPN software and manually install (see manually installing VPN).

- type *your MyPace Username* and *Password* and click **OK** (if prompted)

Once the installation is complete, you will be automatically connected to Pace's VPN.

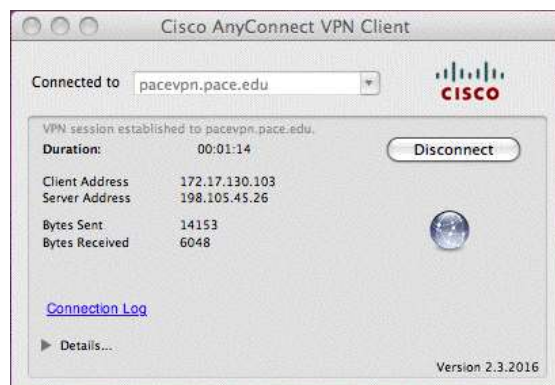

You should now see the icon, located in the **Dock**, which indicates connection. The icon is represented by two green dots and a gold lock.

Note: The connection can now be controlled and accessed from the Dock.

Disconnecting from the Cisco AnyConnect VPN client

- double-click **Cisco AnyConnect VPN Client** icon in the **Dock**
- click **Disconnect**

Getting Help

If you require any help with installing and connecting to the **Cisco AnyConnect VPN Client**, contact the ITS Helpdesk at (914) 773-3333 or send an e-mail to pacehelpdesk@pace.edu.
