This tutorial will show you how to embed an RSS feed on a page.

1. **Find the RSS feed** from a website. Note: not all websites have RSS feeds. An orange icon with white curved lined usually indicates an RSS feed.

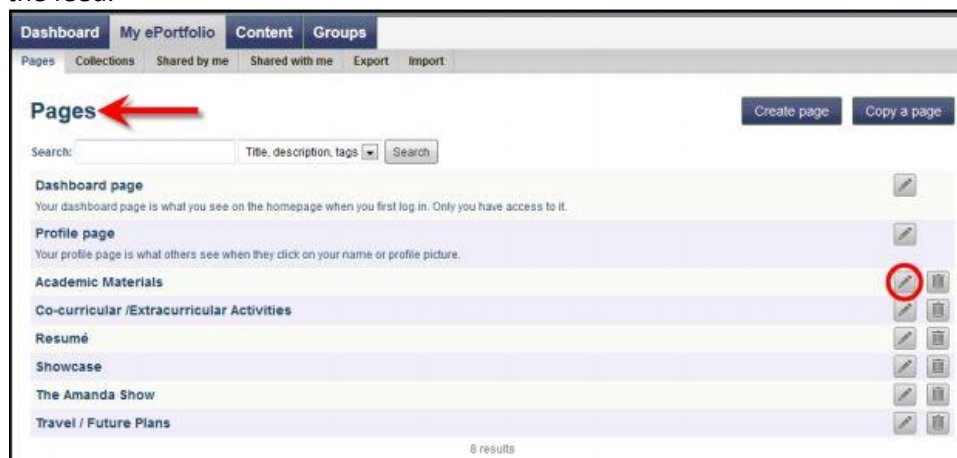

2. **Copy the feed URL** from the address bar.

- Log in to ePortfolio and click the “My ePortfolio” tab.

- Under the “Pages” sub-tab, click the grey pencil icon next to the page where you want to display the feed.

- From the list of content blocks on the left, click the “External” menu. Drag and drop the “External Feed” icon onto your page.

- A dialog box will appear prompting you to **title the feed** and **insert the URL** for the feed you wish to display. **Click save.**
