

# Save the dates for **Student and Faculty Research Days**

Understanding the biological pathways underlying diseases such as pancreatic cancer and epilepsy. How socioeconomic factors influence election outcomes. Encouraging community involvement. The work of Pace faculty, staff, and students is changing our understanding of the world and impacting lives.

The Office of Sponsored Research, Division for Student Success, and Pforzheimer Honors College are hosting **Student and Faculty Research Days** to recognize the exceptional research achievements of the Pace Community. We invite you to join us at this joint event, which will feature research posters and a program. We welcome presentations from faculty, students, staff, or faculty/student/staff research teams.

We hope you will participate! To RSVP or submit an abstract, please contact [sponsoredresearch@pace.edu](mailto:sponsoredresearch@pace.edu) by **Monday, April 10, 2017**.
