Student and Faculty Research Days

Research that:

- Advances technology, health, or trade in international contexts
- Demonstrates the effects of social media on relationships
- Teaches us how to improve retention among transgender and gender non-conforming students

The work of Pace faculty, staff, and students is changing our understanding of the world and impacting lives.

The Office of Research, Division for Student Success, and Pforzheimer Honors College are hosting **Student and Faculty Research Days** to recognize the exceptional research achievements of the Pace Community. We invite you to join us at this joint event, which will feature research posters and a program. We welcome presentations from faculty, students, staff, or faculty/student/staff research teams.

We hope you will participate! To RSVP or submit an abstract, please contact sponsoredresearch@pace.edu by **Wednesday, April 11, 2018**.
