

January 4, 2024

Dear Pace Student,

Your success is our highest priority, and today, we are thrilled to announce several exciting **new features now available in [Degree Works](#)** to support your academic journey. The enhancements outlined below have been implemented to improve the Degree Works user experience and help you make more informed decisions regarding academic goals.

What's New

- **Links to Important Resources**

You and your advisor can now access key Pace resources directly from Degree Works. Find links to the Graduation and Diploma Application, Pace Portal, Registrar Forms, Registrar Help Desk, and Schedule Explorer under the "Links" option at the top of the Degree Works Dashboard.

- **Advisor Email Contact**

A new envelope icon located in the top-right corner of a Degree Works worksheet will display your primary advisor's Pace email address. You can also now see who your primary advisor is directly at the top of the Degree Works audit.

- **Streamlined Student Class History**

Advisors can now easily access your academic history directly in Degree Works under the "More" menu, eliminating the need to log in to another system to find key academic information, including term and cumulative GPA and attempted and earned credits for each completed term.

To explore the new updates, log in to Degree Works as usual. If you do not see the updated functionality, try refreshing your browser. For further reference, a side-by-side comparison guide is attached.

Degree Works is an important tool to enable you to stay on track and graduate on time, and we anticipate that the new enhancements will provide valuable additional support. We look forward to sharing more updates and improvements in the coming weeks. Please contact your academic advisor with any questions.
