Course Description

This course is an international field study course, which incorporates a trip to Johannesburg and Cape Town in South Africa. It will introduce students to the economies of South Africa and other countries in the Sub-Saharan Africa region, with a focus on business opportunities and challenges, development and digitalization. The trip will emphasize the lessons other African nations could learn from South Africa, in order to achieve financial development and boost their economic growths. While in South Africa, students will attend seminars given by corporations, financial institutions, government officials, and other financial executives. There will be on-campus lectures discussing the relevant theories and principles prior to our departure on the trip.

Cost

Program Fee includes:

- Accommodations
- Some meals
- Site visits & excursions
- Ground transportation
- Insurance

Program Fee does not include:

- Pace tuition
- International flights to/from program destination
