

How can **STUDY ABROAD** help you in your career?

Employers will recognize your technical skills from your degree.

But employers also look for CAREER-READY SKILLS. That's where experiences outside the classroom come in — like study abroad.

SKILLS YOU'LL DEVELOP WHILE STUDYING ABROAD

Critical thinking

Confidence

Communication (in a cross-cultural environment)

Problem-solving

Time management

Working in global teams

Growing professional networks in a global setting

Crisis management

Navigation skills

Perseverance

Flexibility

Resilience

Learning about new markets

Travel skills

Maturity
