6. Save the zip file to your local machine.

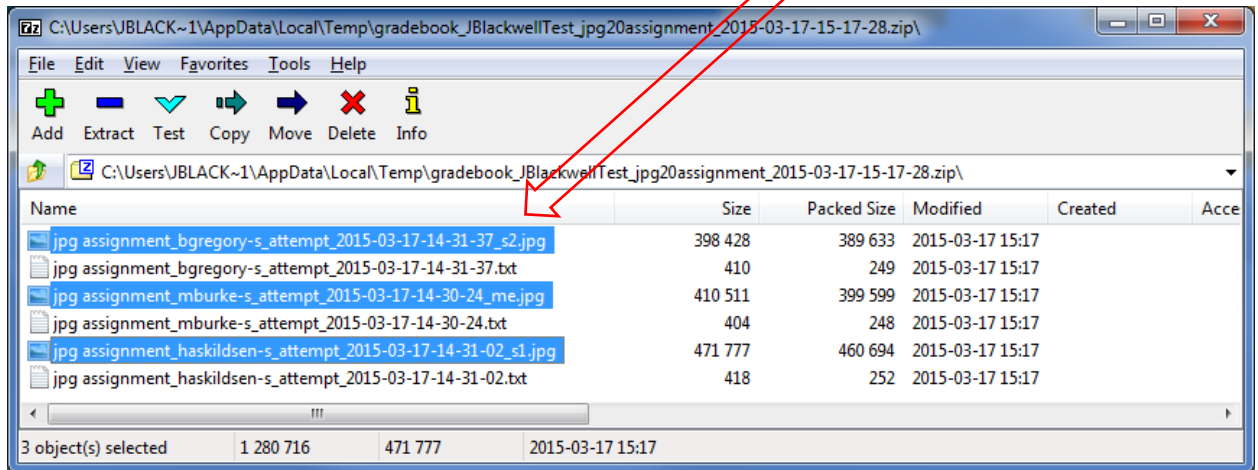

7. The zip file is now on your local machine...probably in your **Downloads** folder.

- Use the zip file program of your choice to extract the files. As an example, Z-ip opens the below interface when double-clicking on the zip file. Hold the **Ctrl** key down and click on the student files to select the desired files. Click **Extract**.

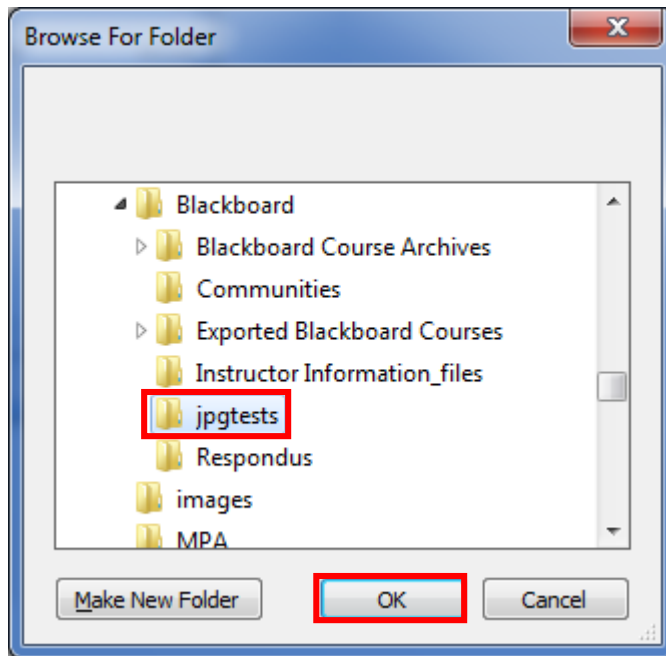

- Select the appropriate extraction folder location by accepting the default folder or click the browse button to select a different folder.

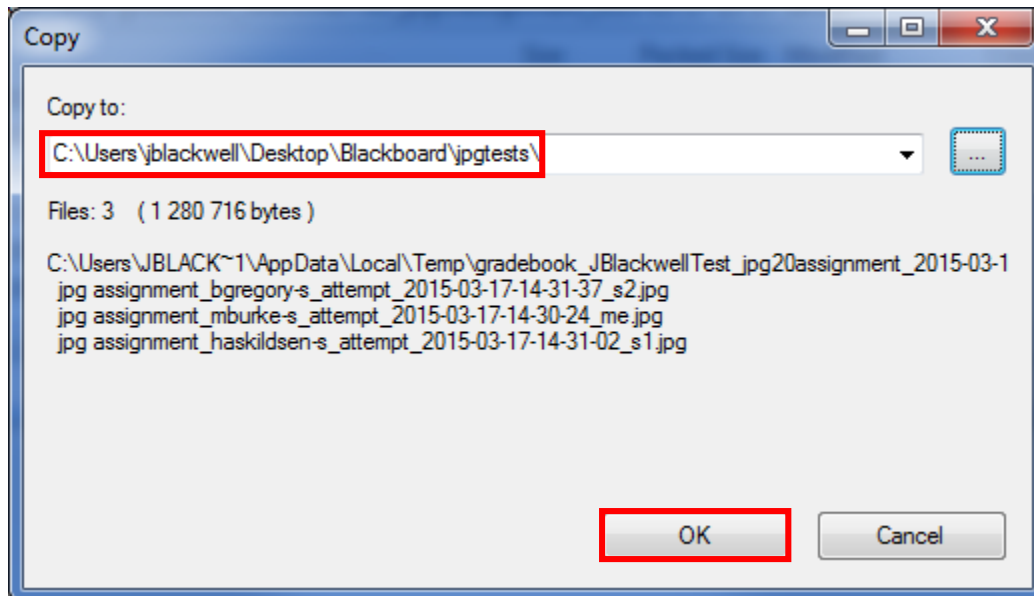

10. If browsing for a different folder, select the desired folder and click **OK**.

11. The selected folder is now indicated. Click **OK**.

12. The desired student-submitted files are now in your folder. Double-clicking a file will open it. Note that the name of the file indicates the student who submitted the assignment.
