NURSING

"Pace has given me a real edge. We have clinical placement early, and we work in the field and in labs far more than what's required for licensing. That's where so much of the learning is, and I'm there."

Watch students in a simulation at the Clinical Education Labs at www.pace.edu/CHP-video.

Innovative Preparation.
Hands-on Experience.

New York City • Westchester

College of Health Professions. *Why?*

- **Breadth.** Choose from exceptional programs in nursing, communication sciences and disorders, and health science.
- **Excel.** Hit the ground running in our renowned nursing (RN4) program that places you in clinical rotations a year earlier than most other schools. You'll start nursing classes as a freshman and clinicals as a sophomore.
- **Stimulating.** Develop life-saving skills and experience working on patient simulators and with standardized patient actors in Pace's state-of-the-art Clinical Education Labs.
- **Global.** See the world and health care in action. Practice your skills in international settings including Argentina, Belize, India, Cyprus, the Netherlands, and South Africa through CHP's many academic and service-learning study abroad opportunities.
- **Achievement.** Prepare to pass your licensure exams through rigorous training. Pace earned a 91.9% pass rate on the 2014 NCLEX-RN exam, the highest for any NYC-metro area bachelor's program, and higher than the 77% New York State average. For the first quarter of 2015, Pace's pass rate was 97%.
- **Interprofessional.** Nursing students collaborate with our Seidenberg School on cutting-edge gerontechnology research, while communication sciences and disorders students work with our Center for Teaching and Research in Autism (TARA) for autism research and programs.

Who hires CHP students?

- **Memorial Sloan Kettering Cancer Center**
- **Montefiore Medical Center**
- **Mount Sinai Hospital**
- **Westchester Medical Center...and more!**
