

# Extensive Options. Exclusive Opportunities.

New York City • Westchester

## ► Dyson College of Arts and Sciences. *Why?*

- **Possibilities.** 50+ cutting-edge majors in arts, humanities, social sciences, natural sciences, and more. Dyson offers students opportunities to expand their intellectual landscape and to engage in professional experiences blended with academic learning that set them up for a wide range of career options.

- **Award-winning.** College Federal Reserve Challenge. Model UN. Mock trial. Research symposia. Film festivals. Our students are nationally and internationally recognized and compete at the highest levels—even besting student teams from Princeton, Swarthmore, Columbia, and Northwestern. They win Truman, Watson, Boren, Jefferson, Gilman, and Fulbright awards.

- **Networked.** With support from top-notch faculty who are renowned in their fields, students travel internationally to meet foreign dignitaries and influential leaders in government and industry, and have access to a vast network of internships, jobs, and alumni.

- **Accomplished.** Students conduct research on tuberculosis, HIV, and cancer in our state-of-the-art labs; write legislation that is passed into law; and address the UN general assembly. They travel around the world to produce award-winning documentaries; take courses at the International Center of Photography; and contribute more than 85,000 hours of community service. They publish work and present at conferences around the world; perform on Broadway; and intern across the New York metro area.

- **Preparation.** We work hard to prepare our students for careers after graduation or graduate studies. Whatever their pursuits—humanitarian, educational, creative, financial, cultural, scientific, environmental, or the helping professions—Dyson students graduate with the skills they need to achieve their goals.

## ► Who hires Dyson students?

- **Hamilton on Broadway**
- **NBCUniversal**
- **Office of the Chief Medical Examiner**
