

DEI Peer Facilitator Application 2020–2021

Please answer all questions in a separate document in the following format for each question: Size 12, Times New Roman font.

1. The most essential role of a DEI Peer Facilitator is to promote the psychological and social wellbeing of a diverse student body at Pace through ongoing peer-to-peer communication on diversity and social justice issues. With this in mind, please discuss in detail why you are interested in becoming a DEI Peer Facilitator.
2. What do you hope to gain from your experiences as a DEI Peer Facilitator?
3. Can you share your experience with public speaking and presenting? How would you describe your experience and level of comfort with facilitating discussion around complex topics?
4. What do you do to advocate for different groups on campus who you do not share identities with?
5. Can you explain a time when you felt uncomfortable on campus due to someone making inappropriate remarks? What did you do? If put in this situation again, would you act the same or differently? Why or why not?
6. Being a DEI Peer Facilitator involves a commitment to attending training sessions and meetings, as well as presenting programs or workshops. Do you foresee any potential barriers from fulfilling your responsibilities?

To complete your application, you are required to have two on-campus references, one of which needs to be from a Pace employee (i.e. advisor, faculty, or staff member). The other must be from a current student-leader.

Interviews and onboarding are tentatively scheduled for late September.
