Instructions

The purpose of this questionnaire is to provide sufficient information and documentation to enable the Office of the University Counsel to make a determination of whether the proposed worker is an employee or independent contractor.

If the Contractor is a corporation and has submitted its articles of incorporation and any required evidence of insurance – this questionnaire need not be completed. Forward the Consultant Agreement, certificate of incorporation and other required documents to Contract Management for processing.

No Independent Contractor agreement can be processed through Purchasing and Contracts unless it has been approved by the University Counsel. Most importantly no worker shall begin work, whether on or off campus, as an independent contractor, until an agreement and questionnaire has been approved by the Office of University Counsel.

The Pace University Worker Status Questionnaire is to be completed by **the University contact person most familiar with the terms and conditions of the proposed relationship between the worker and the University**. If you have any questions about the Questionnaire, please call the Office of University Counsel for assistance.

After the Questionnaire has been completed and the declaration signed, the Questionnaire is to be forwarded to the Office of University Counsel.

Employee or Independent Contractor

The relationship of employer and employee exists when the employer has the right to control and direct the individual who performs the services not only as to the results to be accomplished, but more importantly, as to the details, means, and method by which the results are accomplished. In the absence of such control, the individual is an independent contractor. To determine whether the control test is satisfied in a particular case, the facts and circumstances must be examined. The Internal Revenue Service considers three major factors to determine the extent of an employers control over the worker: Behavioral Controls; Financial Controls and Relationship of the Parties. All relevant information, however, should be considered and weighed in evaluating the right of an employer to direct and control the work of the individual.
